Complete Garden and Estate

CONTRACTING

Our services are available for small gardens
or entire estates—at moderate cost

PRICE **1944** LIST

FOREWORD

The Eisler Nurseries, located in Butler County, are the largest and probably the most complete of any Nursery in this part of the State. You are cordially invited to visit us at any time to inspect the stock. A map is on the back cover to help you to find us.

We are now growing over five hundred varieties of ornamental trees and shrubs all of which have proven their hardiness to stand our severe winters. Our plants are adapted to our climatic conditions and will not winter-kill like so much of the stock shipped from Southern States and sold in this vicinity.

We have a landscape service and are able in some cases to plan and plant your property for you, but due to the shortage of labor this service is now almost at a standstill until the termination of the war and we get our more than thirty boys back from the armed forces.

We do not make Sunday sales, but you may inspect and tag stock to be dug and delivered later.

CONDITIONS OF SALE

The prices in this catalogue cancel all previous prices and are subject to change without notice. All orders for stock are subject to prior sale and our ability to secure sufficient labor to dig the orders.

GUARANTEE

This is governed by the Pennsylvania Nurserymen's Association Uniform Retail Replacement Agreement which is as follows: "Provided account is paid in accordance with government credit rules, and plants receive reasonable care, we will replace at one-half price of the plants, plus cost of planting, plants planted in the spring that fail to survive the following summer, or if planted in the fall, fail to leaf out the following spring."

Should we not have the same plants in stock, we reserve the right to give credit for an amount equal to one-half the cost of the plants lost, in other plants of your selection.

Rosa**HYBRID TEA ROSES****Everblooming or Monthly Roses**

Our experience with roses is that it is best to have them well established in pots before selling them to you. You can safely plant them at any time of the year when potted in the large Cloverset Pots containing 15 lbs. of soil and we are always glad to replace any that do not grow or bloom for you, at no cost.

Fertilizers and Soil Conditioners

MUSHROOM MANURE—This is our best seller for lawns and gardens. Mushroom Manure is a real manure with about 20% topsoil added, that has been used for the growing of one crop of mushrooms in the huge Limestone Caverns located at West Winfield. It is absolutely weedless and odorless, yet contains more fertility than ordinary manures that are so full of weeds and filth. The analysis, according to the Pittsburgh Testing Laboratories, shows the following:

Dry Basis

Nitrogen .70% Phosphoric Acid .62% Potash 1.51%

Prices Delivered Within 40 Miles

10 cu. yds. or more—in multiples of 10.....\$2.90 per cu. yd.
50 cu. yds. or more—in multiples of 10..... 2.75 per cu. yd.

Note: Due to delivery restrictions, we are unable to deliver less than 10 cu. yds. on our large 5-ton trucks, but you may split a load with your neighbor at no extra cost.

Table of Coverage

1 cu. yd. of Mushroom Manure or Eisler's Humus will cover

100 sq. ft. to a thickness of 3 inches
150 sq. ft. to a thickness of 2 inches
300 sq. ft. to a thickness of 1 inch
600 sq. ft. to a thickness of $\frac{1}{2}$ inch
1200 sq. ft. to a thickness of $\frac{1}{4}$ inch

EISLER'S HUMUS—This is a fine grade of cultivated Peat Humus produced in our own plant in Mercer County. It is a splendid soil conditioner and acts as a sponge in retaining moisture in the soil. Use as a top-dressing or to mix with your soil in preparing a seed bed.

Fertilizers

GROWELL 4-12-4

Recommended and approved by the Western Pennsylvania Nurseryman's Association for use on lawns, flowers, trees, shrubs and gardens. No restrictions as to the use. This fertilizer is recommended to be used at the approximate rate of 4 lbs. per 100 square feet of area. It is better to make several light applications about a month apart, rather than too much at one time.
